Thanks Jim.

I concur on the discussion.

Nancy, Jim and I just ran through all the comments and we also plan to bring up today that the UIC permit applies a safety factor in calculating max. injection pressure that is not in the APP, and that the APP does not include injectate monitoring.

Talk to you in a little bit.

Subject: Summary of notes on conference call today, August 3, 2017, on the Gunnison Project APP and UIC permit

Hi Kate,

Nancy, Shari, and I conferred on the Gunnison Project permits today in preparation for a conference call with ADEQ on Friday, August 4 to discuss differences between the ADEQ draft APP and UIC draft permit.

A few of the more significant differences and discussion of those differences are summarized below:

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Nancy and Shari: If I have omitted or mischaracterized important elements or topics discussed today, please add or revise the summary.

Thanks,

Jim
